

Family WORSHIP

Outline

Family Worship should take no more than 30 minutes to complete, but we encourage all of you not to be bound by time. Discuss God as much as you want!

Step 1: Pray

Ask the Lord to bless your time of Family Worship. Ask for guidance and clarity as you begin.

Optional Step: Song

This step is optional. You can sing a suggested song together from our Spotify playlist with a preview available on our website: dalraidabaptist.com/familyworship.

Step 2: Watch Video

Watch our short video. It is available on our website and our YouTube channel. The video's purpose is to foster discussion. If you have both children and students, watch the children's video first and then the student's video. Each week's question is designed to be simple enough for your child to participate and deep enough for your student to be challenged.

Step 3: Discussion Questions

This step should take the bulk of your time. The discussion questions will help you dig deeper into the question and answer of the week. This is also the time to look at the Bible verses presented in the video. This is the primary step for the discipleship of your children and/or youth.

Step 4: Pray

Thank the Lord for your Family Worship time and all that God taught you. Ask God to sustain the spirit of Family Worship throughout the week.
